

- nearby health facility for the use of their showers.
- 7-18 Provide preferential parking with signage for alternative modes of transport such as carpools, electric, hybrid.
- 7-19 Other: _____

Section 8 - Landscape

Required measure:

- 8-1 Test irrigation system to ensure proper operation and water efficiency. Ensure all systems are functioning and not over spraying onto hardscape. (If your landscaping is maintained by a landlord, A:EP will provide a landlord letter you can provide to them to ensure your environmentally friendly preferences are included in the Welcome Package.)

Elective Measures – Choose 3 ‘if existing’:

- 8-2 Pick weeds by hand rather than using herbicides (weed killers).
- 8-3 In place of turf grass, use efficient shrubs or ground cover.
- 8-4 In place of turf grass, use synthetic grass.
- 8-5 Remove hardscape and install permeable paving, such as porous concrete, decomposed granite or pavers.
- 8-6 Install mulch.
- 8-7 Install an irrigation controller that uses weather data to irrigate appropriately.
- 8-8 Use drought tolerant and native plants.
- 8-9 Apply mulch to all exposed landscape to improve moisture retention, reduce weeds, and prevent soil erosion.
- 8-10 Redirect downspouts towards landscaped areas where possible.
- 8-11 Install a cistern or Barrel to collect rain water.
- 8-12 Other: _____
